

### **Multifunction System Drawer**

Sequel's desk drawer combines a full featured keyboard tray with a unique deeper compartment engineered for charging cell phones, cameras, and other personal electronics. Cables are kept organized with Sequel's innovative wire management. Drawer bottom and keyboard tray are lined with black non-slip neoprene that also functions as a mouse pad.

### **Easy-Access Panels**

Magnetically attached panels conceal power cords and cables, yet flip down for easy access to connections. The Return ships with a front panel only, while the Desk also includes a back panel that may be used with either the Desk or Return, depending on configuration.

### **Micro-Etched Glass Top**

Unique micro-etched, black tempered glass worksurfaces are resistant to fingerprints, non-glare, and compatible for use with an optical mouse.

### **Power Strip Placement**

Included magnetic pads allow the user to attach a power strip to the frame of the Desk or Return for easy access (power strip not included).

### **Mobile Components**

Locking wheels on file cabinets and CPU tower provide mobility and versatility. An additional wheel on file drawers prohibits tipping even when fully loaded drawers are extended.

### **Versatile File Storage**

Hanging file drawers can be used for letter- or legal-sized hanging folders with the included hanger rails.

### **Superior Construction**

Engineered to last a lifetime, Sequel components are constructed of satin finished, nickel-plated heavy gauge steel and richly finished wood panels.

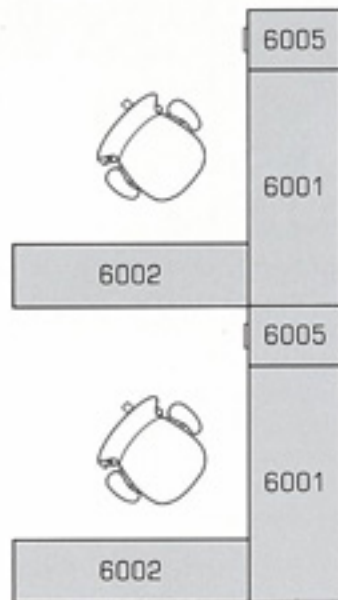

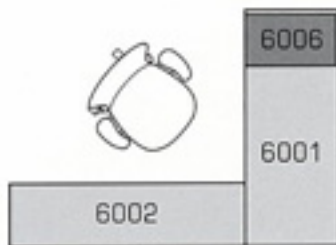

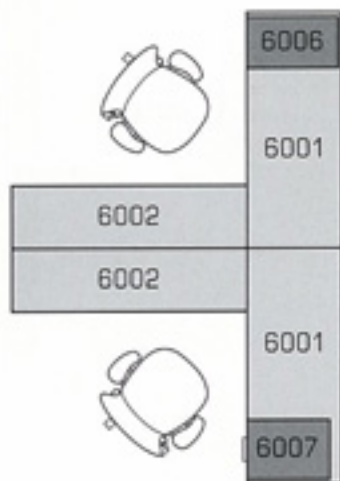

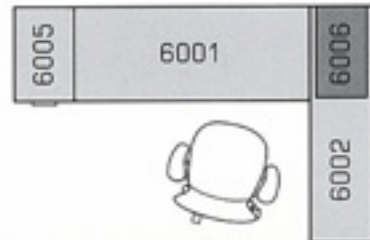

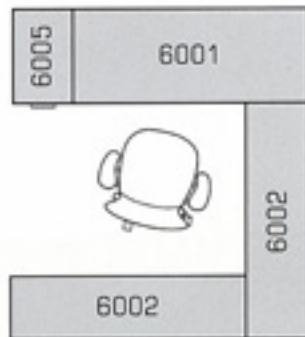

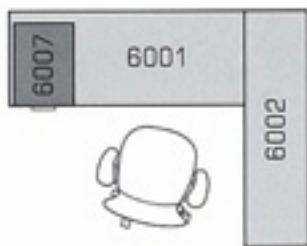

### BDI SEQUEL - Outer Back Panel

Outer Back Panel is included with Model 6001 Sequel Desk and optional for the 6003 Compact Desk and 6002 Return. 6001 Desk Back Panel may be removed from the desk and used on the 6002 Return instead. The outer back panel conceals cables if the desk is visible from the back when "floating" in a room.

### BDI SEQUEL - Inner Back Panel

The Sequel Desks and Return all ship with an Inner Back Panel. The inner panel functions to conceal wires and cables and offer direct access to wall outlets. This comes standard on all Sequel desks but is also removable.

- 6001 - Desk Model
- 6002 - Return Model
- 6005 - Tall Model File Pedestal
- 6006 - Mobile CPU Cabinet
- 6007 - Low Mobile File Pedestal
