

Mobil is a system of containers that simultaneously boasts agility, mobility, practicality, resistance and durability. Thanks to their design and the glamour of the colours proposed, they fit into any room in the home or office, meeting various use functions. Surfaces and drawers are available in three finishes: with a successful semi-transparent effect, opaque and glossy in the PMMA transparent version. The drawer, alternating with the upper surfaces and the top, is the system's base element. Mobil can be a simple chest of two to six drawers with convenient handles. The possible configurations can rest on wheels or legs, suggesting Mobil use in different contexts: from the bedroom to the living room to the bath, even as a stereo stand, to the study or office as desk drawers for office supplies and documents.
